If you change your HealthChoice Illinois plan

If you choose a different HealthChoice Illinois plan for your long term care or waiver services, your new plan will send you a welcome packet in the mail. The packet will include your new member ID card and a member handbook. You will use your member ID card to get your long term care or waiver services beginning on the start date of your new plan. This will not affect your medical services or doctors. You will continue to receive your Medicare services as you do today. If you have questions call your health plan member services number found on your member ID card.

You will stay in your new health plan until your next annual open enrollment period.

Remember, if you would like to change your health plan, you must do so before [DATE] or you will stay in the plan you are in now until your open enrollment period next year.

You do not have to call us to stay with your current health plan!

Thank you,
